

UAE Supermarket Sales Analysis

Loveson Mukombiwa | 2026

Project Objective

Content:

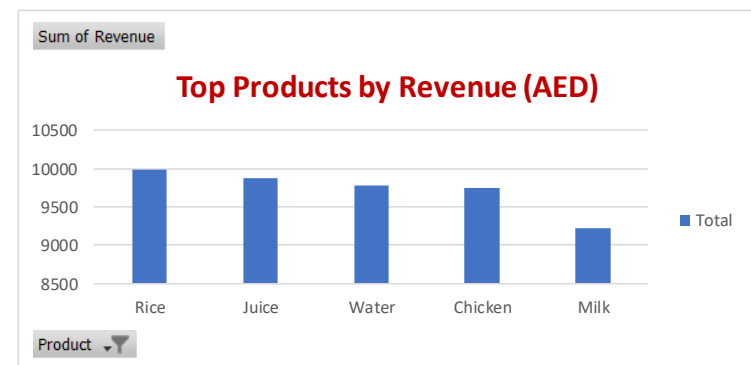

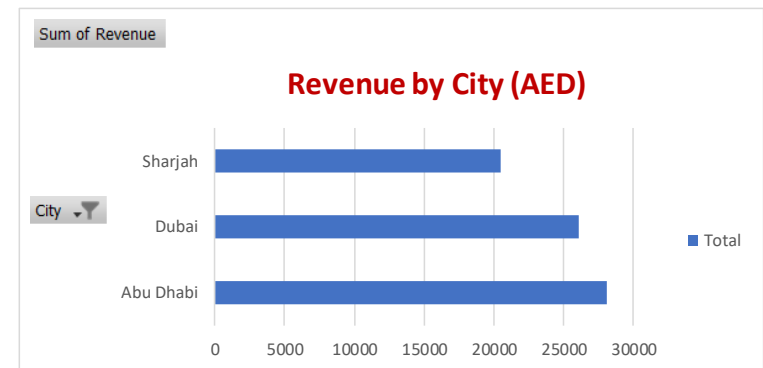

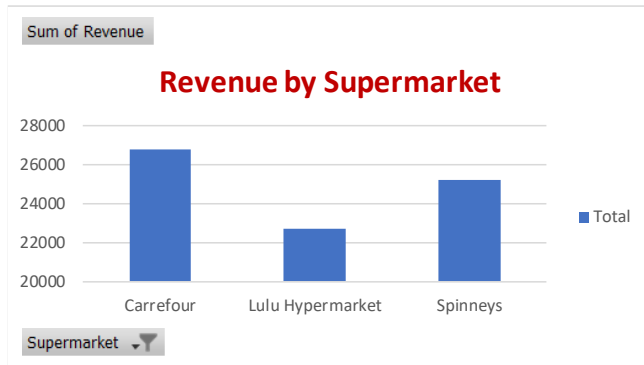

- Analyze supermarket sales performance across UAE cities
- Compare revenue across supermarkets and products
- Identify trends and key insights

Sales Dashboard Overview

Total Revenue
AED 74,698.26

Total Quantity
2715

Average Price
AED 27.12

Source: simulated UAE supermarket sales data

Key Insights

- Carrefour generates the highest total revenue among supermarkets
- Abu Dhabi is the top-performing city based on revenue
- A small number of products contribute significantly to total sales
- Sales show monthly variation, indicating possible seasonal demand patterns

Recommendations

- Expand high-performing supermarkets to maximize revenue growth
- Focus on top-selling products to improve profitability
- Improve performance in lower-performing cities through targeted strategies
- Use monthly trends to optimize inventory and promotions
